

Volume XXVI, Issue 5

May 2019

Editor: Thomas Price; KC2PSC

April 11, 2019 Board Meeting

Call to order – 19:17

President's Report:

Discussion of open officer positions (president, secretary) and director position (1).

Treasurer's Report:

None

Old Business:

Volunteer recognition program –

tabled for next meeting

Field Day discussion:

Field day, June 22-23, 2019 will be at the Harborfields Library.

New Business:

None

Adjourn – 19:22

April 11, 2019 General Meeting

Call to order – 19:32

Pledge

Introductions

President's Report – (VP report) –

Discussion of open officer positions (president, secretary) and director position (1). Also needed are someone to coordinate monthly speakers, a field day chair, and finance committee members.

No one expressed an interest in taking on any of the open positions. We need members to come forward and help run our club.

Treasurer's Report: financial position

overview. We have \$2011.94 on hand between all our accounts.

Secretary's Report: no correspondence.

Repeater Report: We will need to move the equipment in the Denisson Building.

The .210 repeater is running well. We are looking into getting an internet connection up and running at Boxer Court to support Echolink.

Membership: no report.

VE Sessions: VE sessions will be held on June 8, August 10, October 10, and December 14. Thanks to our VE team!

Good & Welfare: None.

Night Timers: attendance usually 3-5 members, stimulating conversations, all are welcome.

Social Media / Groups IO / Website:

The website has had most of the problems, including dead links repaired. Traffic on the webpage has been light. Visit the webpage today at Larkfield.org. GroupsIO has had problems with file uploads. The Facebook group has been quiet.

Publications / QSX: QSX is running late but will go out in the next couple of days. Members are encouraged to submit

original articles for publication (size does not matter).

RACES & Public Information: Skywarn training on 4/29 at Bethpage EOC (old Grumman facility). Pre-registration is recommended.

Announcements

None.

Old Business – none.

New Business

None

Presentation

Adjourn – 20:06

May Club Meetings

May 9, 2019

7:30 PM Huntington Senior Center

Have you done something interesting in Ham Radio that club members would be interested in? The club is always looking for presentation topics and speakers.

American Morse Equipment KK2 CW Key Paddle Kit Review

By John, K2IZ

This kit from [American Morse Equipment](#) features:

- New redesign in steel and aircraft grade aluminum for less mass and smoother feel
- Fully machined on new, state-of-the-art Computer Numerical Control machinery
- Fully adjustable spring force and contact gap for individual feel.
- Finger paddles may be installed in “up” or “down” position
- Close tolerance machining & superior design produce exceptionally smooth & solid feel
- Aluminum parts Mil spec Type-II Anodized
- Accurate machining & simple design provide for easy assembly
- Heavy, rubber-footed base stays put on your bench - weight 1-1/2 pounds
- Allen wrench for assembly included
- Base supplied raw, fully machined; all other parts finished & ready to assemble
- And a LIFETIME GUARANTEE just like everything we make!

This is the American Morse Equipment KK2 paddle kit. I had originally bought one when I first retired back in 2010.

One of the things I couldn't do was paint the base. No matter how I tried it never came out right so I left the base in an “as is” condition.

I have brought the old KK2 to Field Day since I bought it. A lot of people who used it liked it but it was starting to get a rather worn look to it. I tried using BRASSO to polish it up but it still didn't look good, plus the original build used set screws to lock the adjustments in place and no matter what I did I couldn't turn them to readjust the spacing and spring.

I emailed Doug, W6AME and he suggested using penetrating oil or applying heat but I'm not too handy doing that. He also suggested that I could send the paddle to him and he would fix everything up, as he advertises LIFETIME GUARANTEE. I didn't want to get involved in the cross-country shipping so I thanked him and ordered a new KK2 kit.

I want to use the KK2 with the QRP LABS QXC transceiver kit I have built. The kit has a built-in keyer and some of us in the club want to take it out to a park or the beach and do some QRP operating. I knew from the first kit that this was a very rugged paddle, something that would work in harsh conditions. There is no way any of us would consider a BENGALI paddle that sells for a couple of hundred dollars. The BENCHER always seems to have problems with the springs. In addition I had spoken to one of the control operators who activates the USS KIDD (DD-661) museum ship and he uses the same type of paddle.

If you notice the base is now painted black. I took the base to a local body shop -- not a problem getting it painted. I mentioned the crackle finish on my Brown Brothers paddles and they said they were able to do it. I just might take the old base to them and get it painted with the crackle finish. They just have to make sure to mask the parts that make contact.

Overall it's an easy build, which is great for those us with failing eyesight and arthritic fingers. The manual is available from their website as a PDF. There is also ample warning before you open the shipping envelope: There are MANY little parts that are just waiting to get lost. CAREFULLY OPEN THE PARTS PACKAGES OVER A CONTAINER. Enough said! Overall it's a great kit and easy build -- unless you have to take the base to get it painted. You can order direct from their website: <http://www.americanmorse.com/index.htm>

There is also a large selection of other types of paddles and keys. ☺

W2LRC Station Trustee Jonathan Schwartz KC2PBE

Members of the Larkfield Amateur Radio Club are invited to use the W2RGM Dix Hills Repeater System:

2 meters

147.075 MHz out/147.675 MHz in
4z/136.5 Hz PL

The Larkfield Amateur Radio Club wishes to thank Bruno KC2ESI, Jack K2JX, Joe N2QPD, Bob AC2AZ, Thomas KC2PSC, and Pat WB2CMF for their dedication and efforts in maintaining the Club’s repeaters and our packet and APRS stations. Their collective efforts and donations of equipment along with the overview of Bob AC2AZ and Peter AA2VG have kept us “on the air”. Still to go, another 440 MHz repeater and adding IRLP or Echolink to one of our repeaters. We need volunteers for this new work.
